- (6) In line with its statutory mission, the Agency needs to reinforce its monitoring of the nuclear fuel market to identify market trends that could affect security of the European Union's supply of nuclear materials and services.
- (7) Therefore, the Agency needs to provide specialist training to its staff and to undertake missions to selected utilities and producers in order to assess the status of preparations for increasing the European capacity in nuclear fuel cycle services (conversion, enrichment and fuel fabrication) and to better follow the implementation of the diversification plans established by the nuclear utilities to enhance security of supply.
- (8) The Agency is required under Article 1 of its Statutes to seek the advice of, be supported by and act in close cooperation with the Advisory Committee, established in accordance with Article 11 of the said Statutes.
- (9) The allocation for the meetings of the Advisory Committee needs to be reinforced due to travel cost increases.
- (10) Additional allocation was provided to reinforce the budget line 20 03 14 01 'Euratom contribution to the operation of the Euratom Supply Agency' by Directorate-General of Budget and Directorate-General for Energy.
- (11) The statement of revenue and the statement of expenditure in the Agency's budget for 2023, as approved by Commission Decision C(2022) 9491, have to be amended.
- (12) In accordance with Article 7(9) of the Agency's Statutes, any modification of the budget shall be the subject of an amending budget adopted by the same procedure as the initial budget.
